➢ Title of the Project:

Glow Beauty Makeup Studio Website using Figma

➢ Aim:

To design a visually appealing and user-friendly **makeup studio website interface** using Figma that allows users to explore services, view portfolio, and book appointments easily with a smooth and engaging user experience.

➢ Objectives

- To design a clean and modern beauty website UI in Figma
- To ensure easy navigation and user-friendly interface
- To showcase makeup, hair, nails, and skincare services attractively
- To create a portfolio section for displaying work
- To design a booking system for appointments
- To apply proper color scheme (beige, rose gold, shimmer theme)
- To improve user experience using layout, typography, and visuals

➢ Tasks to be Done

1. Research & Planning:

- Study beauty salon and makeup website designs
- Select theme (shimmer, beige, rose gold)
- Plan user flow:
  Home → Services → Portfolio → Booking → Contact

2. Wireframing:

- Create rough layout of each page
- Decide structure:
  - Home page
  - About page
  - Services page
  - Portfolio page
  - Booking page

3. UI Design in Figma:

Design the following screens:

- Landing Page (Hero section with banner)
- About Page (Artist introduction)

- Services Page (Makeup, Hair, Nails, Facials)
- Portfolio Page (Image gallery)
- Booking Page (Appointment form)
- Contact Page (Details + social links)

4. Component Creation:

Create reusable components:

- Buttons
- Cards
- Input fields
- Navbar
- Maintain consistency in:
- Fonts
- Colors
- Spacing

5. Prototyping:

- Add navigation links between pages
- Create interactive flow (clickable prototype)
- Add:
  Booking button interaction
  Instagram / WhatsApp links

6. Testing & Improvement:

- Check alignment and spacing
- Improve readability
- Ensure consistent design
- Enhance UI with shadows, gradients, shimmer

➢ Implementation :

The project was implemented using Figma, where multiple screens were designed such as:

- Home Page with shimmer background and hero section
- Services Page displaying makeup, hair, nails, and skincare
- Portfolio Page with image grid layout
- Booking Page with form inputs (name, service, date, time)
- Contact Page with social media links

The design uses:

- Soft beige and rose gold color palette

- Rounded UI elements and shadows
- Shimmer background for aesthetic look

Prototype connections were created to simulate real website navigation.

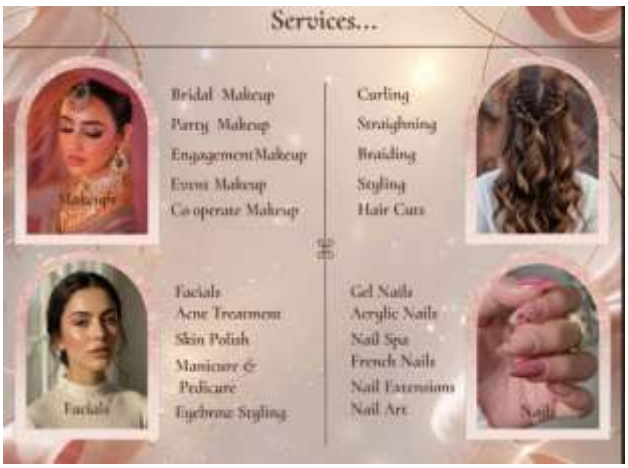
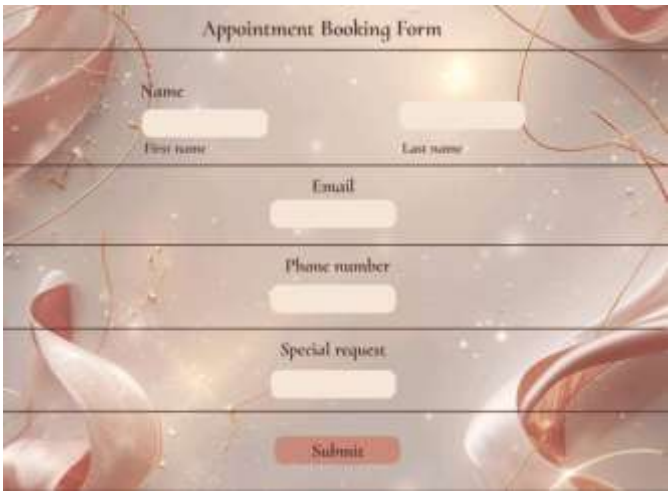
➢ Output:

The final output consists of a fully designed interactive prototype of a makeup studio website including:

- Attractive landing page
- Service listing screens
- Portfolio gallery
- Booking form page
- Contact and social media integration

The prototype demonstrates how users can navigate through pages and book services easily.





➢ Conclusion:

The Glow Beauty Makeup Studio project successfully demonstrates how a digital interface can enhance the experience of a beauty service platform. Using Figma, a visually appealing and user-friendly website was created that highlights services, showcases portfolio, and simplifies the booking process. The design combines aesthetics with functionality, ensuring users can easily explore and interact with the website. Overall, the project achieves its goal of creating an elegant, intuitive, and professional beauty website interface.

➢ Learning Outcomes:

- Gained practical experience in Figma UI/UX design
- Learned to design beauty-themed modern interfaces
- Understood importance of color, typography, and layout
- Developed skills in wireframing and prototyping
- Learned how to create user-friendly booking systems
- Improved creativity in aesthetic and luxury UI design
- Understood real-world website structure and user flow
